# Press Release For Immediate Release

**SNUBA**<sup>®</sup>  
GO BEYOND SNORKELING<sup>®</sup>

SNUBA is a worldwide patented shallow water diving system that bridges the gap between snorkeling and scuba diving. Since its introduction in 1988, millions of people around the world have safely participated in a SNUBA diving adventure. SNUBA was designed for those who enjoy snorkeling and would like to explore beneath the surface without the difficulties normally associated with scuba diving.

All SNUBA tours are conducted by licensed SNUBA Recreation Centers (“SRC’s”). SRC’s are factory trained to offer a safe and entertaining dive. Participants are given a pre-dive orientation to learn basic skills and techniques for the tour. During the SNUBA Adventure the SNUBA Guide will point out unique marine life and familiarize the participants with our underwater world. Total time underwater is approximately 20 to 30 minutes.

The Snuba system and programs are designed to put the customer at ease. No prior diving experience is required. If you have basic swimming skills you are ready to go. The SNUBA raft carries the weight of your air supply and is never more than 20 feet away. The SNUBA raft provides a convenient and comforting platform for participants to rest or take a break any time they desire. SNUBA is a unique and exciting vacation activity for the whole family. The minimum participant age is eight. The Snuba Doo program is designed for children four through seven years of age.
